Hi Greg,

Are you attaching these files all at once to the same field or are you attaching these to three different fields.

If these are all going into one field, it is suggested you try to attach them one at a time and "Save" and close the module before reopening and submitting.

If this doesn't work, again try saving and closing after each upload, but don't submit. Let us know at that point and we'll have our technicians examine the server to try and isolate the issue.

Thanks,
EPA GSDT Team

Subject: RE: GS Electronic Signature and Use Agreement for San Joaquin Renewables LLC

Thank you very much, that seems to have resolved the issue and now we see the information when Dr. Paskach logs in. We have successfully submitted with most of the modules.

However, we are now having an error with the Class VI Financial Responsibility Demonstration module. Even though 'Validate Required Fields' indicates everything is OK, when we go to submit we get the following error. When we try to reupload the same 3 documents we get the same error again. Thank you for your assistance. Greg

Submission Failed: 3 attached files cannot be found on the server.
The names of the missing files are:

SJR_FR-cost-estimates_073021.xlsx
Additional-Information.txt
New-Energy-Risk-LOI-to-US-EPA-for-SJR.pdf

You will need to upload the files again from your local computer before a submission can be made. Step through the tabs and look for red highlighted fields. Note that the missing files may be hidden in a tab not currently shown. Clear the file field for a missing file by hitting the "X" button and then re-attach the original file by hitting the paperclip button. Note that if multiple files are attached for a missing file field, all of them must be re-attached.

Contact your permitting authority for guidance if you no longer have the original files that are missing.

OK

Good morning,

Our apologies for the inconvenience. Our technicians believe that they have resolved the problem. Please have Dr. Paskach try again and let us know if you continue to have issues.

Best regards,
EPA GSDT Team

Hello all. When we log in to the GSDT with Dr. Paskach's credentials unfortunately none of the information/files that have been added with my credentials are showing up. We see that the Project ID is the same regardless of who logs in. Is there some action we should be taking to have the information show up when Dr. Paskach logs in to authorize the submission? Thank you, Greg

Good afternoon,

Mr. Paskach's ESA has been processed. You should now be able to submit application materials for the San Joaquin Renewables project.

Best regards,
EPA GSDT Team

All,

The signed and notarized copy was shipped by FedEx and is supposed to arrive by 10:30 am tomorrow (Tuesday). The tracking number is 285334942480. We would like to complete the application submission as soon as possible as this permit is a critical path item for our project construction. Thanks for considering.

Molly, Daniel, and all,

The attached is a signed and notarized electronic signature and use agreement for T.J. Paskach of San Joaquin Renewables LLC. The original is being sent by courier to the address provided on the ESA. Please let us know if you have any questions – and please confirm your receipt of this email. Thank you!
